Professional Experiences

Frontend Developer

Freelance | Remote | July 2025 - Present

- Translated complex UI/UX design files (Figma) into clean, responsive, and reusable React components using TailwindCSS and custom-built styling.
- Designed and integrated RESTful API contracts with backend teams, translating data requirements into consumable endpoints for dynamic, data-driven interfaces.
- Implemented comprehensive unit tests using Jest to ensure code reliability, maintainability, and seamless team integration.
- Developed scalable component-based architectures following OOP principles, resulting in modular codebases that are easy to maintain.
- Collaborated within Agile/Scrum-style workflows, participating in sprint planning and iterative delivery cycles to ship features incrementally.
